

ख म ड ग ह इ क ण

Maintain consistency with Ma and apply optical correction

Can be similar to Ma and Bha?

Not dark enough comparing with Ma

The counterform is rectangular and is opposing with the Pa counter. id suggest bringing down the horizontal

न ण प फ र ष त व

the wedge shape is very hard to form with a tool.
Can be similar to Ma and Bha

weights not matching
This is consistent in many glyphs.
Thumb rule, curve should be 110% thicker than the straights. Offcourse your eye should be the final judge.

य

The counterform is way too elongated in comparison to the Pa
